

# New IDBs and the roles of local authorities

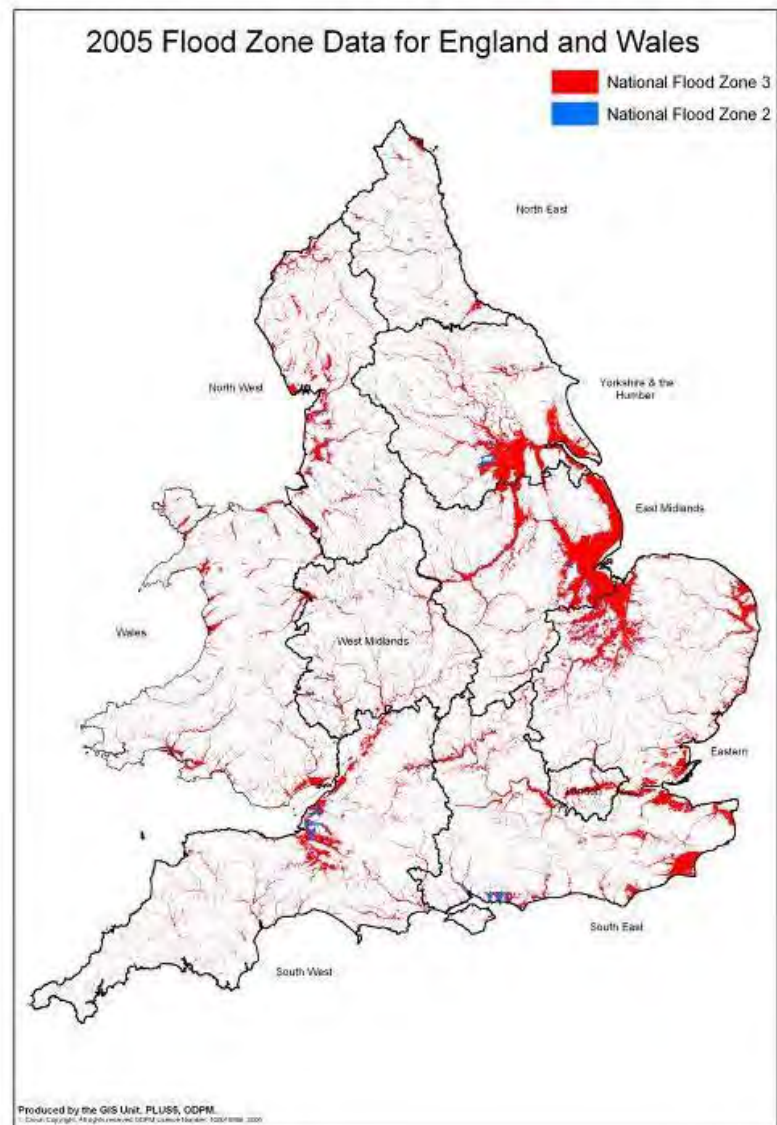

Ian Moodie, Technical Manager  
Association of Drainage Authorities

IDB districts are established within areas that will derive benefit or avoid danger from drainage operations.....

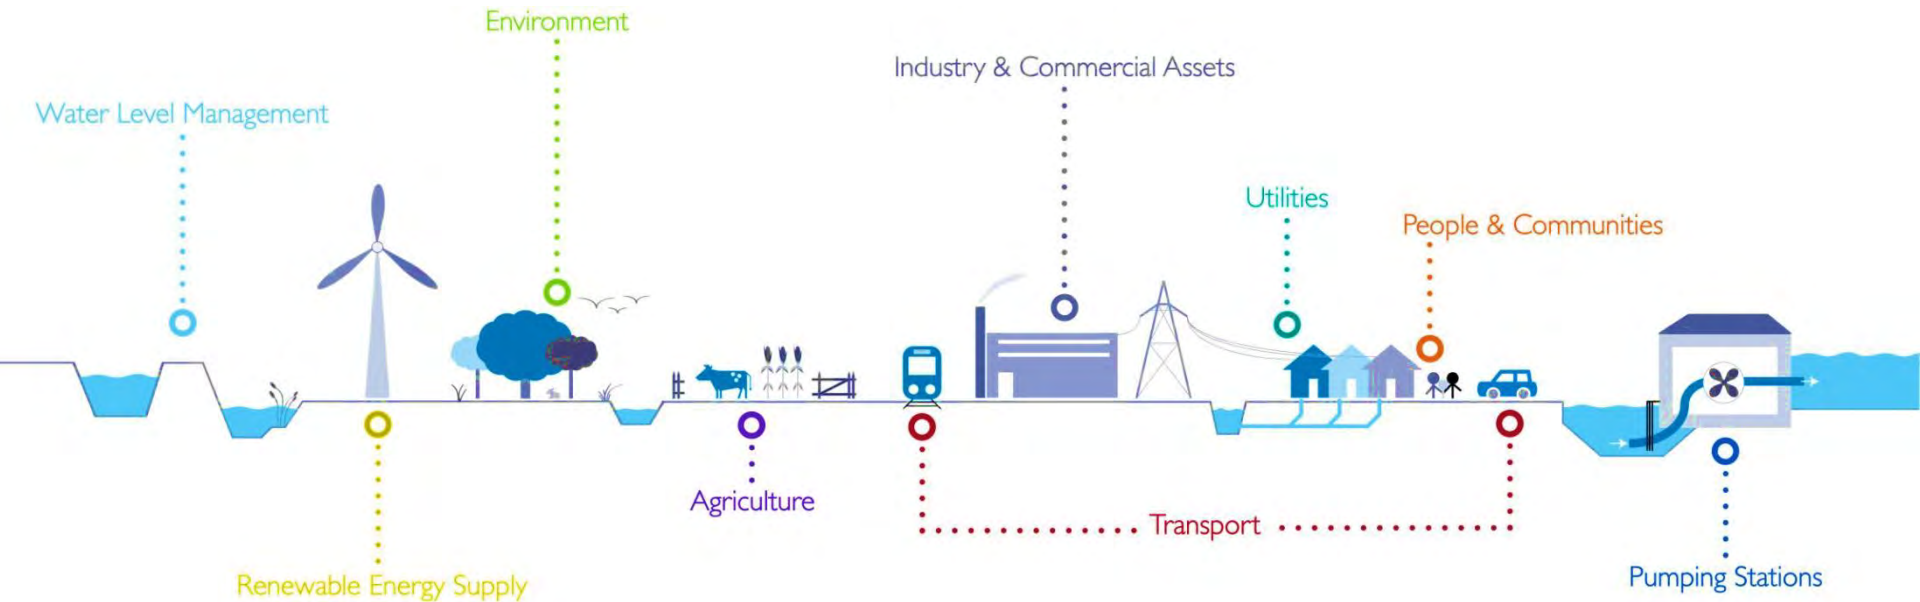

IDB Review - Final Report

From ODPM presentation on PPS25 (2006)

# Role of an IDB:

Much more than just drainage, many beneficiaries

Created by Association of Drainage Authorities © 2013

- 600,000 people live and/or work, 879,000 properties
- 53% of UK energy generating capacity

# Role of an IDB:

Much more than just drainage, many beneficiaries

## An introduction to Internal Drainage Boards (IDBs)

- 600,000
- 53% of U

# New IDBs and the roles of local authorities

Partnerships have been key to...

Understanding:

- What makes their patch special
- What the needs and desired of the different groups involved
- What hurdles need to be overcome
- The benefits and drawbacks of different solutions

Seeking:

- Help and support from others (e.g. From ADA)
- Solutions to funding (but more work is needed to ensure
- Government backing and funding to realise local solutions.
