

ENGINEERING ASSISTANT/LAND SURVEYOR

Salary £23,855 - £26,677

**Local Government Pension Scheme ▪ Company Vehicle ▪
Relocation Package ▪ Nine Day Fortnight**

The Water Management Consortium manages over 2,000km of watercourse and 68 pumping stations for three drainage boards in low lying areas of Lincolnshire, South Yorkshire and Nottinghamshire. We have a reputation for delivering a quality service and adopting an innovative approach and are looking for a highly motivated individual to join our small dedicated team. This position is based at our newly refurbished offices in Manby, Lincolnshire, but will include surveying throughout the whole of the Consortium's area. Please visit the website for further information on the Boards.

The successful candidate will be responsible for carrying out topographical surveys, updating the asset management database, producing survey and technical drawings, hydrological modelling and scheme design.

Experience in topographical survey techniques and knowledge of Geographical Information Systems, Computer Aided Design and Flood Risk/Drainage Management Engineering would be advantageous.

For an informal discussion please contact David Sisson.

The closing date for applications is 31st March 2017 and interviews will be held at Manby on 6th April 2017.

Information pack and application form available from:
