### About Breheny

Formed in 1963, Breheny is one of the largest family-owned civil engineering companies in the UK. Breheny have developed to provide civil engineering services to almost two thirds of the country from offices in Suffolk, Yorkshire, Cambridgeshire, Kent, and Hampshire.

Since their creation, Breheny have worked on diverse, award-winning projects across England, covering many different specialisms of civil engineering, including rivers, marine, and environmental sectors. Breheny's directly employed workforce and owned plant fleet allow them to be operationally resilient, proactive and continuously improve their high standards, working for the Environment Agency, Canal & River Trust, and internal drainage boards.
